

January 2018 Banquet Newsletter

Come join us for a special event to start the New Year!

Our Inland Empire Section President, Bill Meeks, has made arrangements for a great guest speaker this year:

Robin Kemper, P.E., LEED AP, F.ASCE, F.SEI
2018 ASCE President-Elect

Robin is a senior risk engineering consultant for Zurich Services Corp. in New Jersey, where she is an industry expert in the areas of builder's risk and professional liability. She has been an active member of ASCE since 1978, and has held many positions including Region 1 Director and President of the New Jersey Section and Central Jersey Branch. Robin was elected as 2018 President-Elect in spring of 2017, which resulted in the first ever all-female leadership triumvirate with 2018 President Kristina Swallow and 2018 Past-President Norma Jean Mattei. Robin holds Bachelor's Degrees in both Civil Engineering and Building Science, and a Master's Degree in Civil Engineering from Rensselaer Polytechnic Institute with minors in Spanish, archaeology, and anthropology.

For more on Robin, including a video on her vision for ASCE:
